NOTES.—I. The indices for 1957-58 and 1958-59 are generally based on Partially Revised Estimates while those for 1959-60 are generally based on Final Estimates. The indices for these years are, therefore, subject to revision.

2. Figures given above relate to Agricultural year (July-June).

3. Owing to progressive increases in coverages and changes in methods of yield estimation, the actual production figures as given in Table Nos. 2·2 and 2·3 are not comparable over time. For comparison of all-India figures over time Index Numbers of Agricultural Production as given in this Table may be used with a view to enabling trend studies.

*Partially Revised Estimates

†Final Estimates

} subject to revision.

NOTES.—(i) Figures in **bold type** are in thousand metric tons.

(ii) Production of Rice is in terms of cleaned Rice.

(iii) Production figures relate to Agricultural year (July-June.)

(iv) Production figures for the latest two years are comparable, while those for the earlier years are not strictly comparable due to changes in coverage and method of estimation. For comparison of all-India figures over time Index Numbers given in Table No. 2.1 should be used.

See also footnote (iii) to Table No. 2.3.

NOTES.—(i) Figures in **bold type** are in thousand metric tons.

(ii) Production figures relate to agricultural year (July-June.)

(iii) Figures for 1957-58 and 1958-59 are based on Partially Revised Estimates while those for 1959-60 are based on Final Estimates and are, therefore, subject to revision.

(iv) Production figures for the latest two years are comparable while those for earlier years are not strictly comparable due to changes in coverage and methods of estimation. For comparison of all-India figures over time, Index Numbers given in Table No. 2·1 should be used. The following Table gives the years with effect from which the estimates of production of

Neg.—Negligible.

N.B.—**Bold figures** are in thousand metric tons.

A—Includes purchases made from Andhra Pradesh.

B—Represents approximate total quantity in transit, docks and holds of steamers.

C—Includes 4,000 tons purchased from Punjab.

D—Excludes 22,000 tons of rice and 37,000 tons of wheat in 1958, and 11,000 tons of rice and 14,000 tons of wheat in 1959 released from Central Depots, apparently taken into account in the figures reported by erstwhile Bombay Government as these quantities have already been included under Central Sales.

E—Represents supplies to Tea Gardens and quantity sold by auction.

£—Includes figures for Gujarat upto 1959.

@—Includes shortages.

†—"Others" includes Nepal, Saudi Arabia, Pondicherry, Sikkim, Bhutan and starch manufacturers.

NOTES :

- (1) Issues include (i) direct sales from Central depots to retailers, mills, Defence Services, etc. and (ii) Issues from State Government godowns i.e., from quantities supplied to State Governments from surplus States and Central Stocks and from quantities locally purchased.
- (2) "Rice" includes paddy in terms of rice.
- (3) "Wheat" includes wheat products.
- (4) "Other Grains" includes Jowar, Bajra, Maize, Ragi, Barley, Milo, Sorghum, Small Millets and Gram.
- (5) "Internal Procurement" represents quantities actually delivered and excludes quantities though covered by offers or requisition orders but not actually delivered.

1. Local procurement was suspended in some States during 1952; in Madras for all cereals from 7th June, in Uttar Pradesh for all cereals other than rice from 1st July, in Mysore for millers, in Madhya Bharat for rice and millets, and in Saurashtra for all Kharif cereals from November, 1952. During 1953, monopoly procurement of rice was replaced by levy system in West Bengal from 1st January; the levy system was given up from 14th October and purchases were made on a voluntary basis thereafter. In Andhra Pradesh, the levy system of procurement was given up in mid-December and purchases were made on a voluntary basis at village site at prices fixed by the Government. In Uttar Pradesh, procurement of rice was given up in December, 1953 though collection of the quantity procured earlier continued thereafter. Procurement of wheat and coarse grains was given up after the decontrol of these cereals in November. Small quantities of coarse grains were, however, procured during 1954 from the eastern districts of Uttar Pradesh. Some quantity of coarse grains was also procured by Madhya Bharat in 1954. Procurement of rice was resumed in surplus districts of Madras in 1953. In Assam, Punjab and erstwhile Bombay and Travancore-Cochin procurement of rice was stopped from 14th March, 1954, 20th February, 1954, 21st March, 1954 and 7th April, 1954 respectively and in other States procurement of rice was stopped completely from 10th July, 1954 consequent upon complete decontrol of rice from that date.

2. In December, 1954, the Government of India announced their policy of limited purchase of food-grains as a measure of price support. In this connection Table No. 6 and the Note below may be seen.

3. Owing to the difficulties of procuring rice from abroad in 1957, limited purchases of rice were made internally in Andhra Pradesh, Punjab and Orissa by the Government of India. In Andhra Pradesh, rice was procured in the three delta districts of Krishna, West Godavari and East Godavari. To begin with, procurement was made at the average of the prices for three months preceding the 6th June, 1957 under the provisions of the Essential Commodities (Amendment) Act, 1957. Later, on 14th September, 1957, maximum controlled prices were notified for these districts and procurement was made at these controlled prices. These controlled prices were revised with effect from 30th December, 1957 when procurement operations were extended to Guntur district also. Procurement was made partly by requisitioning and partly on the basis of voluntary offers.

4. In Punjab and Orissa, purchases were made on the basis of voluntary offers by trade. On 19th March, 1957, the Orissa Government first banned the export of rice. When they started making purchases, the Government of India prohibited the export of rice from Orissa with effect from 6th June, 1957 and from the Punjab with effect from 30th December, 1957. Maximum controlled prices for rice in the Punjab were fixed with effect from the 28th December, 1957.

5. The Central Government purchases of rice were extended to Madhya Pradesh in 1958. Besides purchases by the Centre, a number of State Governments undertook purchases of rice, paddy and wheat on their own account in 1959.

6. Purchases of rice/paddy which were being made by the State Governments on their own account in West Bengal, Madras and Mysore were given up in 1959. Maximum control prices, fixed in these States and in Bihar and Kerala were also withdrawn. Purchases of rice/paddy on Central Government account in Orissa ceased with effect from 21st December 1959, consequent on the formation of the Eastern Rice Zone.

7. In 1959, purchases of rice/paddy, by the Central Government were made in Punjab and Madhya Pradesh and to a negligible extent in Andhra Pradesh; and by the State Governments on their account in the States of Assam, Madhya Pradesh, Orissa, Punjab, Uttar Pradesh and Jammu & Kashmir and in the Union, Territory of Tripura. The Government of Punjab had also purchased a small quantity of rice for themselves.

8. In the case of wheat, purchases were made only by the Governments of Punjab, Madhya Pradesh and Uttar Pradesh on their own account, and even in these three States purchase operations were not continued throughout the year. In Punjab and Madhya Pradesh purchases were given up from the middle of July and September, 1960 respectively. In Uttar Pradesh the levy on wheat dealers and the statutory price control on wheat imported in May, 1959, were withdrawn in August, 1960.

NOTES.—1. In December, 1954, the Government of India announced that in view of the fall in the prices of some foodgrains to unduly low levels in some isolated areas, they would be prepared to purchase from cultivators as a measure of relief, jowar at Rs. 5.50 per maund or Rs. 14.74 per quintal, bajra at Rs. 6.00 per maund or Rs. 16.06 per quintal and maize at Rs. 5.50 per maund or Rs. 14.74 per quintal at certain specified mandies where the prices fell below these levels. The policy of limited price support was extended to wheat in March, 1955, when the Government announced that they would make purchases of F. A. Q. wheat at rail-head mandies at Rs. 10.00 per maund or Rs. 26.80 per quintal where its price fell below that level. In June 1955, a minimum purchase price of Rs. 6.00 per maund or Rs. 16.06 per quintal was announced for gram, the machinery for the purchase of gram being the same as that for wheat. In August, 1955, the Government announced its decision to make purchases of coarse rice, as a measure of price support, at selected mandies, if the price of that quality fell below Rs. 11.00 per maund or Rs. 29.47 per quintal.

2. The limited price support policy for jowar, bajra and maize was extended in September, 1955, to the 1955-56 Kharif crop when the Government of India announced the same minimum prices for these grains as were in force in 1954-55.

3. No purchases of bajra and coarse rice were made during 1955 as the market prices of these cereals did not fall below the minimum prices announced by the Government.

4. No purchases of cereals were made during 1956 on Government of India's account. A quantity of 20,518 tons or 20,847 metric tons of rice and 1,563 tons or 1,588 metric tons of paddy was, however, purchased through trade on Jammu & Kashmir Government's account and despatched direct to Pathankot.

5. Information given in this Table is according to the old set-up of States prior to re-organisation on 1st November, 1956.

NOTES.—1. The subsidy scheme was introduced from 1st April, 1946. This scheme was revised from 1st January, 1951. According to the revised scheme, the Central Government subsidised specified quantities of imported cereals in selected industrial towns and urban areas. With effect from 1st March, 1952, the subsidy scheme was abolished, but imported rice (coarse and broken), and milo continued to be supplied by the Centre to the recipient States at reduced prices (*i.e.* at prices lower than their actual landed cost). The losses so incurred were borne exclusively by the Government of India. The erstwhile Travancore-Cochin State was, however, allowed a special lump-sum subsidy of Rs. 2.25 crores during 1952-53 and Rs. 1.60 crores during 1953-54 due to its being highly deficit in the production of foodgrains.

2. The figures given above represent both the subsidy paid at the source and the amount of subsidy which accrued to the State Governments on the cereals supplied to them during the specified period and do not represent the amount as adjusted in accounts.

3. The amount shown against 1954-55 and 1955-56 represents the losses incurred by the Government of India on the sale of imported rice from Burma and the quantities taken over from various State Governments as a result of de-control in July, 1954.

4. The amounts shown against 1956-57 onwards represent the losses in the shape of reduced prices. With effect from the 1st April, 1956 foodgrains have been supplied to State Governments and others at a specially reduced price with a view to stabilising the market prices in the country.

NOTE.—The Bonus Scheme was introduced with effect from the 1st January, 1948, bonus being allowed at the rate of eight annas (50 NP.) per md. for all cereals procured in a State and at other eight annas (50 NP.) per md. on exports made to other States under the Basic Plan. A revised Bonus Scheme was introduced from the 1st January 1951, the main points of which were:—

- (a) No bonus was payable on cereals procured by a State for its internal consumption, and
- (b) Net export and import quotas were fixed for each State for the year and bonus was paid to the Importing and exporting States on a graded scale for exports and imports beyond a prescribed minimum.

The Bonus Scheme was abolished with effect from the 1st January, 1952, though arrears of bonus were paid during 1952-53 to 1957-58.

NOTES.—1. Procurement prices for Andhra upto 1952-53 are included in Madras. Procurement price of Paddy (II Sort) in Andhra for 1953-54 was Rs. 9·39 nP. per maund.

2. The procurement prices fixed for the 1953-54 season related to the period May 1953 to April 1954 in respect of Rabi cereals and November 1953 to October 1954 in respect of Kharif cereals. Since the fixation of these prices in the beginning of the harvest, wheat was decontrolled completely from November, 1953, coarse grains including barley from 1st January 1954 and rice from 10th July 1954. The above prices fixed in the beginning of the year, therefore, were applicable till the time of decontrol and consequent on decontrol no prices were fixed for the 1954-55 season.

3. Information is according to the set-up of States prior to re-organisation on 1st November, 1956.

APPENDIX IV

Reserve Bank Directives regarding Control of Credit against Foodgrains

1. The Reserve Bank issued a directive on May 17, 1956 to scheduled banks which required them not to grant fresh advances or credit limits to individual parties in excess of Rs. 50,000 against paddy & rice and to raise the existing margins by 10 per cent. Banks were also requested to endeavour to bring down advances to a level not more than 125 per cent. of the level obtaining a year ago.

2. The selective credit control was extended on September 13, 1956 to cover advances against wheat, coarse grains and gram & pulses. Margins were to be raised by 10 per cent. over the prevailing levels and banks were prohibited to grant fresh credit limit or increase existing ones against any or all of these grains taken together in excess of Rs. 50,000. Banks were requested to endeavour to reduce their advances to a level not substantially higher than that a year ago.

3. In order to facilitate movement of new crop, restrictions on paddy & rice advances were withdrawn on November 14, 1956.

4. Restrictions on advances against paddy & rice were re-imposed on February 9, 1957. The existing margin was to be raised by at least 10% provided that the margin when so increased was not to be less than 35%. Banks were requested to endeavour to maintain level of advances in such a way that from March 15, 1957, it was not more than 75% of the level a year ago.

5. In view of the rising trend of bank credit against foodgrains, the Reserve Bank issued another directive on June 7, 1957 which required banks (i) to raise existing margin at least by 5% so as to provide a margin of not less than 40%; (ii) not to sanction any fresh credit limit to any party in excess of Rs. 50,000 or to increase any existing limits below Rs. 50,000 beyond this figure, and (iii) to maintain an aggregate level of credit from July 12, 1957 which was not to exceed 66-2/3% in respect of paddy & rice and 75% in respect of other foodgrains of the level obtaining in the corresponding week in 1956.

6. On December 11, 1957 the Reserve Bank issued a fresh directive which required the banks to adhere to a minimum margin of 40% as before and to restrict the sanction of new limits to individual parties to Rs. 50,000 or not to raise the existing limits beyond that amount against paddy & rice or wheat and other foodgrains and pulses. Banks were also asked to maintain each month commencing from January, 1958, an average aggregate level of credit against paddy and rice not exceeding 75% and against wheat (excluding advances to roller flour mills) and other foodgrains not exceeding 80% of the average of similar advances during the corresponding months of 1955, 1956 and 1957, and also to maintain in each month in Andhra Pradesh and Madhya Pradesh a level of advances against paddy and rice not exceeding 60% of the advances in the corresponding month of 1957.

7. On September 10, 1958, a new directive was issued in terms of which the average aggregate level of advances from October, 1958 against wheat (excluding advances to roller flour mills) was required to be maintained at 66-2/3% of the average aggregate level a year ago for the country as a whole and for the State of Punjab, taken separately. Advances against 'other foodgrains' (excluding wheat) were not to exceed 80% of the level in the corresponding month of 1957. Provisions relating to margin limit, credit limit and regulation of advances against paddy and rice remained the same as provided for in December 11, 1957 directive.

8. On December 29, 1958 a fresh directive was issued which came into operation from January, 1959. It required that advances against paddy and rice each month during 1959 be maintained within the levels permitted to individual banks for the corresponding month of 1958, both in the aggregate and in the States of Andhra Pradesh and Madhya Pradesh. Advances against wheat and other foodgrains taken separately for each month were not to exceed their outstanding advances in the corresponding month of 1958, subject to the condition that advances in Punjab against wheat were not to exceed their outstanding total in the corresponding month of 1958. Provisions relating to margin limit and credit limit remained unaltered.

9. On April 24, 1959, the Reserve Bank issued a directive to scheduled banks operating in Orissa requiring them to maintain from May 1959 an average aggregate level of credit which was not to exceed the level of credit permitted under December 29, 1958 directive plus 3 times of the actual level of credit in Orissa in corresponding months of 1958, provided the additional credit (3 times of 1958 level) went to the licensed purchasing agents.

10. The Reserve Bank's directive issued on July 10, 1959 which came into effect from August, 1959 modified some of the provisions of the earlier directive in order to facilitate procurement and also to meet seasonal requirements. The existing margin requirements of 40% were retained, subject to a reduction to 25% for rice and paddy to purchasing agents in Orissa and for wheat to storage delivery contractors in Punjab. The restriction against the sanction of fresh credit limits or increase in the existing limits in excess of Rs. 50,000 was withdrawn. The average aggregate level of credit was fixed (a) on a State-wise basis and (b) separately for (i) paddy and rice (ii) wheat, and (iii) other foodgrains.

11. Selective control of bank credit against foodgrains was continued during the year as part of the overall policy to check speculative holding of foodgrains. During 1960, two directives—one modifying the control on advances against rice and paddy and the other regulating advances against wheat—were issued by the Reserve Bank on January 16, 1960 and August 20, 1960, respectively. In addition, temporary relaxations in ceiling limit on advances against rice and paddy for traders in the State of Kerala and reduction in margin requirements on advances against rice and paddy to licensed millers and traders in the State of Punjab were also granted.

12. The directive of January 16, 1960 continued the broad framework of credit control on advances against foodgrains with some flexibility in respect of advances against paddy and rice and relaxation in respect of new branches of scheduled banks. Under this directive, the ceiling limit on aggregate advances against paddy and rice for each month from February 1960 was fixed in the States of (i) Andhra Pradesh (ii) Madhya Pradesh and (iii) other States taken together, at the level of credit permitted to be maintained for the corresponding month in 1958 or 1959, whichever was higher. In the case of wheat and other foodgrains the provisions laid down in the directive of July 10, 1959 remained unaltered. Exemptions in favour of branches of Scheduled Banks opened on or after January 1, 1958 and other exemptions were continued with slight modifications.

13. The directive of August 20, 1960 abolished the separate ceiling limit on advances against wheat as prescribed for the States of Punjab, Himachal Pradesh, Delhi and Jammu & Kashmir in the earlier directive and made it uniform for all the States. This step was taken in view of comfortable supply position of wheat and the assurance of additional wheat supplies under the P. L. 480 agreement. Under this directive, the ceiling limit on aggregate advances against wheat for each month from September 1960 was fixed for the country as a whole, at the level of credit actually maintained in the corresponding month in 1958. Margin requirements of 40 % in respect of all foodgrains, subject to a minimum of 25 % for wheat to Storage Delivery Contractors in Punjab were retained in this directive. Other provisions relating to rice and paddy, other foodgrains and exemptions etc. as laid down in the earlier directive of January 16, 1960 remained unaltered in this directive.

14. On August, 21, 1960, temporary relaxations in ceiling limit on advances against rice and paddy were granted in favour of traders in the State of Kerala from August, 1960 to October 1960 upto 200 % of the level of credit permitted to be maintained in the corresponding months of 1959. These relaxations were extended upto December 1960.

15. Margin requirements were also fixed at 25 % for rice and paddy to licensed millers and traders in the State of Punjab from October 8, 1960.

16. The banks, in general, complied with the terms of the directive issued by the Reserve Bank.

17. In view of the improvement in the supply and price situation of foodgrains, the Reserve Bank of India issued a new directive on February 8, 1961 reducing the minimum marginal requirements in respect of advances against all foodgrains from 40 % to 35 % and increasing the ceiling limit for advances against rice and paddy in the States other than Andhra Pradesh to 110 % of the permissible level in 1960. Thus, the separate ceiling limit on advances against rice and paddy in the State of Madhya Pradesh has been abolished and this State has been grouped with other States for this purpose. This has been done in view of the creation of a new food zone comprising the States of Madhya Pradesh, Maharashtra and Gujarat. There will, therefore, be a two-fold classification of States, namely, (i) Andhra Pradesh and (ii) other States. To ensure greater flexibility in implementation, it has also been decided to fix permissible levels in respect of advances against foodgrains for periods each of two calendar months, commencing from March 1961, instead of one calendar month as hitherto.
